Poplin

100 % Cotton

POPLIN

Article No. 06203-1100 / 06203-1101 (with pigment pre-treatment)

"Poplin is a strong, medium-weight, plain-weave fabric with slight rib structure"

The balance between construction (plain weave), yarn count and warp/weft count creates a durable textile which is relatively lightweight. The "Poplin" is characterized by a tight, attractive surface and a fine, grainy feel. Perfectly suited for a variety of high-quality applications in home and fashion segment.

Applications

Dresses, Skirts, Blouses, Deco, Curtains

Facts

Composition	100 % Cotton
Construction	Woven, Plain 1/1
Width brutto	160 cm (± 2cm) ¹
Weight	125 g/m ² (± 5%) ¹
Selvedge	tuck-in, 1,5 cm

¹ Tolerance, due to the stretchable construction of knitted fabrics.

Care label

Please wash separately!

Print technology

Features

Organic certified by CU 1018427

Printing on Textile Guide

https://berbertextiles.com/wp-content/uploads/2022/11/Printing-on-textile-DE-EN_21x11cm.pdf

***Important: Always perform print test!** Many parameters influence the print result: printer, type of ink, textile, room climate, intended use and much more.

An ideal print result can only be achieved in combination. That is why we at **berbertextiles** recommend only the printing processes for a product that will achieve the best results. The recommendations are the result of intensive print tests and must meet the highest demands in terms of print quality. Often it is also possible to print the textiles with other printing processes. In these cases, the individual requirements and technical possibilities are very important. All technical information was determined according to the current state of measurement technology and reflects the values of the test sample.

Despite the highest quality standards, there may be deviations in production technology – all information is not legally binding and without guarantee.
