INTERSTRUCTURES

“Interstructures for home” describes fabrics made of 100 % polyester with different relief-like patterns.

The medium-heavy material imitates the natural cotton look and is carefree to use. Discreetly set accents are gently shiny and bring depth even to very simple designs. The print results achieve a slight multi-dimensionality. The product is available in two widths (160 cm and 320 cm). Upon request the product is available with flame retardant treatment.

Facts

Composition	100 % Polyester
Construction	different weave patterns
Width brutto	160, 320 cm
Weight	200 g/m ²
Selvedge	closed, 1,5 cm, fringe max. 3 mm
Shrinkage	Length < 3 % Width < 2 %
Calender	195 °C, 52 Seconds

Applications

Curtains, Bed canopy, Bags, Blanket, Table clothes, Cushion case

Care label

Please wash separately!

***Important: Always perform print test!** Many parameters influence the print result: printer, type of ink, textile, room climate, intended use and much more. An ideal print result can only be achieved in combination. That is why we at **berger textiles** recommend only the printing processes for a product that will achieve the best results. The recommendations are the result of intensive print tests and must meet the highest demands in terms of print quality. Often it is also possible to print the textiles with other printing processes. In these cases, the individual requirements and technical possibilities are very important. All technical information was determined according to the current state of measurement technology and reflects the values of the test sample. Despite the highest quality standards, there may be deviations in production technology - all information is not legally binding and without guarantee.
